PROFESSIONAL SUMMARY

M.Tech (CSE) student with a B.Tech in Computer Science (CGPA: 7.92). Interested in software development, problem-solving, and building real-world applications. Comfortable with programming, databases, and project development, and looking for opportunities to contribute to a team through clean code and practical solutions.

KEY SKILLS

- **Programming Languages:** Java, C++, Python
- **Web Technologies:** HTML, CSS, PHP
- **Databases:** SQL
- **Tools & Technologies:** Git
- **Operating Systems:** Linux, Windows
- **Soft Skills:** Problem-solving, Teamwork, Leadership, Time Management
- **Development Practices:** Agile, OOP, Waterfall

EDUCATION

MASTER OF TECHNOLOGY IN COMPUTER SCIENCE AND ENGINEERING

Government Engineering College, Thrissur. Expected Graduation: 2027

BACHELOR OF TECHNOLOGY IN COMPUTER SCIENCE AND ENGINEERING

Toms College of Engineering, Kottayam, Kerala. Graduated : May 2025 — CGPA: 7.92/10

HIGHER SECONDARY (HSS) St. Agnes Girls' HSS, TamilNadu Percentage: 87%

CERTIFICATIONS

- **Complete Python Bootcamp: From Zero to Hero in Python**, Udemy — Completed: 2025
- **IoT, Machine Learning, AI, and Python Workshops**, Various Platforms — Gained hands-on experience with practical applications of cutting-edge technologies.

PROJECTS

ONLINE COLLEGE MANAGEMENT SYSTEM Technologies Used: HTML, PHP, CSS, MySQL Developed a comprehensive platform for managing academic records, course registrations, and announcements. Focused on creating a user-friendly design and seamless navigation for students and faculty.

CYBERSENTINEL: AI-POWERED FRAMEWORK FOR CHILD PROTECTION AND DIGITAL SAFETY Published on SSRN and IRJET Developed an AI-based framework aimed at enhancing child protection and ensuring digital safety. Worked on implementing advanced machine learning algorithms for real-time threat detection and response.
